

Appropriations Subcommittee

Defense

Requesting Organization

Primordial Incorporated

1835 Energy Park Drive

St. Paul, MN 55108

Purpose of Request

To design software to provide best path routes for off-road missions for dismounted soldiers using the Ground Soldier Ensemble (GSE). GSE is an integrated ensemble worn by soldiers that enhances their combat efficiency and reduces the risk of fratricide. It consists of a helmet mounted display, a small computer for situational awareness, a GPS navigational device, radio, display and headset. This program will demonstrate the system's operational effectiveness and suitability when used within an Enhanced Infantry Brigade Combat Team.

Amount Requested

\$2,000,000
